

Get Straight, Get Smooth, Get Rid of Frizz at Salon De Christé

**By: Lynn Miller
Owner**

With hair trends moving toward smooth, well conditioned waves with movement, the new Keratin Complex Smoothing Therapy is the trend. Keratin Complex will help you banish the frizz with a permanent blow dry lasting up to five months. If you ever wished that your hair was more manageable, softer, straighter and had more shine, we have the solution at Salon De Christé.

Keratin Complex Smoothing Therapy is a new service. It's not a conditioning treatment and it's not a chemical straightening service. Keratin Complex infuses Keratin protein deep into the hair cuticle to eliminate up to 95 percent of the frizz and curl from the hair, leaving the hair soft, shiny and luxurious. After a Keratin Complex service, you'll cut your styling time in half and with the use of the Keratin Complex home care products, you can ensure the longevity of your service.

The professionals at Salon De Christé have received special training and are certified to perform this intense three to three and a half hour service. Keratin Complex Smoothing Therapy is gentle enough to be used on all hair types. A great time to have the treatment is directly after a color service. Color is sealed into the hair leaving it vibrant and extending the life of the color. The entire process starts with a consultation before the service and a follow up shampoo and blow dry appointment 72 hours after the service to lock in your new look. Also included in the \$350 price are full sized bottles of Keratin Complex shampoo and Keratin Complex conditioner that **MUST** be used after your service.

Call us today and let us take you from curly and frizzy to soft, silky, straight and shiny.

Call Salon De Christé Mid Rivers at (636)939-2229 or Salon De Christé West Clay at (636)946-2805.
